

HIFINITY SLIDING DOORS

HiFinity is a premium aluminum sliding door system designed to maximize transparency through ultra-slim profiles and large-format glazing.

Its minimal frame presence allows expansive glass surfaces with reduced visual obstruction, making it ideal for contemporary projects that prioritize natural light and uninterrupted views. The system supports large panel dimensions while maintaining structural stability and smooth operation.

Engineered for low-energy applications, HiFinity combines advanced insulation with reliable performance, offering a refined solution for high-end residential and architectural projects.

- MADE IN CANADA
- HIGH PERFORMANCE ALUMINUM SYSTEMS FROM REYNAERS
- SOBINCO ACCESORIES

PERFORMANCE HIGHLIGHTS

- **Ultra-Slim Profiles:** Minimal frame design maximizes glass area and reduces visual obstruction
- **Large-Format Capability:** Supports vent heights up to 4000 mm, widths up to 3500 mm, and weights up to 750 kg, enabling expansive sliding configurations
- **High Thermal Performance:** Achieves insulation values of U_w 0.28 (double glazing) and U_w 0.20 (triple glazing) for low-energy applications
- **Reliable Weather Performance:** Air infiltration of 0.08 cfm/ft³ and water resistance up to 12 psf
- **Acoustic Performance:** Up to STC 45 dB and OITC 37 dB for improved interior comfort
- **Structural Performance:** Rated AAMA Class CW, supporting performance in demanding conditions
