

MASTERLINE 8 ENTRY DOOR SIDE-HINGE / SWING

Side-hinged doors are designed to provide a reliable and versatile entrance solution, combining traditional operation with contemporary aluminum construction.

Built for both residential and commercial applications, these doors offer consistent performance, structural stability, and long-term durability. Their configuration supports everyday usability while maintaining a clean and integrated appearance within the overall architectural design.

Available in glazed or solid panel configurations, side-hinged doors allow flexible design integration while accommodating a range of functional and aesthetic requirements.

- MADE IN CANADA
- HIGH PERFORMANCE ALUMINUM SYSTEMS FROM REYNAERS
- SOBINCO ACCESORIES

PERFORMANCE HIGHLIGHTS

- **Classic Hinged Configuration:** Traditional side-hinged operation designed for stability and everyday usability
- **Durable Aluminum Construction:** Engineered for structural strength and long-term performance
- **Flexible Design Options:** Available in glazed or solid panel configurations to meet different design and privacy requirements
- **Large-Format Capability:** Supports door weights up to 551 lbs, enabling larger entrance configurations
- **Smooth Operation:** Designed for consistent and controlled opening performance over time
- **Custom Finishes:** Supports different interior and exterior finishes for design flexibility (wood, concrete, painted glass or aluminum)
